

OFFICIAL CATEGORIES

It is the responsibility of the athletes and coaches to read and understand the rules and regulations of the tournament before they enter.

The organisers will not be held liable for the disqualification of athletes entering the wrong division or not complying with the rules.

A division must have a minimum of 2 competitors to run and, in instances where this is not the case, the organisers will merge categories as fairly as possible at their own discretion.

Next to each category there is a reference code. Please enter this code clearly on your entry form.
